Information is subject to change without notice. Northern Telecom reserves the right to make changes in design or components as progress in engineering and manufacturing may warrant. This equipment has been tested and found to comply with the limits for a Class A digital device pursuant to Part 15 of the FCC rules, and the radio interference regulations of Industry Canada. These limits are designed to provide reasonable protection against harmful interference when the equipment is operated in a commercial environment. This equipment generates, uses and can radiate radio frequency energy, and if not installed and used in accordance with the instruction manual, may cause harmful interference to radio communications. Operation of this equipment in a residential area is likely to cause harmful interference in which case the user will be required to correct the interference at their own expense.

SL-1 and Meridian 1 are trademarks of Northern Telecom.

Revision history

August 1, 1993

Standard, release 1.00. This is a new document that merges documents 2001-110, 2201-110, 2201-113, 2201-115, and 2201-116, and incorporates X11 release 19 changes.

December 1994

Standard, release 2.00. Reissued to include technical updates. All updates are noted with revision bars in the margins.

July 1995

Standard, release 3.00. Reissued to include technical updates for release 21. All updates are noted with revision bars in the margin.

December 1995

Standard, release 4.00. Reissued to include Hands Free.

April 1996

Standard, release 5.00.

August 1996

Standard, release 6.00.

October 1997

Standard, release 7.00. Reissued to include technical update.
